**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Group I, claims 1-26, 31, and 32 in the reply filed on 7/19/04 is acknowledged. However, upon reconsideration the Examiner has concluded that there should have been a restriction done in addition to the prior restriction. The Examiner apologized for any inconvenience brought upon the Applicants. An additional restriction is necessitated due to the recognized divergent subject matter.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 14-20, 31, 32, drawn to an aircraft system, classified in class 244.

II. Claims 1-13, and 21-26, drawn to a fitting, classified in class 248.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it does not require that the first portion transfers at least a portion of the pitch loads from the external structure to the wing. The subcombination has separate utility such as for use to attach external structures in a vehicle instead of an aircraft.

Art Unit: 3644

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trinh T Nguyen whose telephone number is (703) 306-9082. The examiner can normally be reached on M-F (9:30 A.M to 6:00 P.M).
